

Non-lockable Elastic Confined Space Control Cover

MADE IN THE USA. This non-lockable elastic mesh cover that was specifically designed for high traffic confined spaces that may not require a lockout/tagout device to be used. Known best as our Turnaround/Shutdown cover, it is a true barrier and sign in one. This durable and reusable cover replaces the barricade tape, plastic, chem tape, wire and signs that are cluttering your warehouse.

Features:

- UV treated red polyester mesh fabric which withstands up to 400°F.
- 1" elastic band to secure covers to pipe or man-way.
- Vinyl Sign printed with Eco-Ink and UV coated. Rated for 3 years, 24/7 direct exposure. Standard OSHA approved sign reads "DANGER-CONFINED SPACE-ENTER BY PERMIT ONLY"
- Any other size and shape can be manufactured upon request.

Benefits / Applications:

- Great for Turnaround/shutdowns/outages. Covers are durable, reusable and easily stored.
- Perfect for confined spaces that require proper ventilation.
- Barrier protection and signage in one product. Meeting and exceeding OSHA requirements.
- Excellent visual aid. Covers can easily be seen stories up from the ground.
- Fast & simple to install and remove. No more opening yourself up to violations with barricade blowing in the wind. These covers can not be improperly installed.
- Versatility. Round covers can be used on various other shapes.
- Convenient/lightweight/carry easily in bulk. Roll them up & carry them anywhere.
- Reduces the amount of trash & waste that is produced when companies use the single use products such as barricade tape, chem tape & plastic.
