

Standard LOCK-ABLE Confined Space Control Cover

MADE IN THE USA. This Lock-able red mesh cover is available for facilities that have tight budgets but are committed to improving confined space safety. The standard lock-able covers are manufactured using UV/FR treated red mesh polyester and utilizes a one and half inch strap to secure the cover to the flange. Strap features fifteen (15) grommets on each side. This allows you to adjust the fit before locking the cover. Can be easily incorporated into your lockout/tagout procedure. This cover is re-usable and offers the same level of protection as the Premium Lock-able covers. No warranty available.

Features:

- UV treated red polyester mesh fabric which withstands up to 400°F.
- 1 ½ " nylon strap. 15 grommets on each side to secure on man-way
- UV coated vinyl sign printed with latex ink. Rated for minimum 3 years, 24/7 direct exposure.
- Custom cover sizes/shapes are available. Custom sign verbiage also available to fit your specific needs.
- Any other size and shape can be manufactured upon request.

Benefits & Applications:

- Same benefits as Premium Lockable Ventilated covers PLUS more effective for restricted budgets.
- Great for Turnaround/shutdowns/outages. Covers are durable, reusable and easily stored.
- Excellent visual aid. Covers can easily be seen stories up from the ground.
- Fast & simple to install and remove. No more opening yourself up to violations with barricade blowing in the wind. These covers can not be improperly installed.
- Versatility. Round covers can be used on various other shapes.
- Convenient/lightweight/carry easily in bulk. Roll them up & carry them anywhere.
- Reduces the amount of trash & waste that is produced when companies use the single use products such as barricade tape, chem tape & plastic.
