

Elastic Non-lockable Confined Space Control Covers

Ideal for:

- ▷ High traffic confined space openings.
- ▷ Manways requiring effective barrier protection to reduce entry of unwanted debris.
- ▷ Confined spaces requiring ventilation.
- ▷ Controlling access/egress points.
- ▷ Downstream refining, petrochemical, offshore, shipyard & more.
- ▷ Everyday operations, turnarounds/shutdowns/outages.
- ▷ Service companies committed to best practice work standards at all job sites.
- ▷ VPPPA sites + companies looking to standardize confined space method to achieve VPP status.

Product Benefits & Features:

- Barrier protection & signage in one easy-to-use product.
- Ventilated UV/FR treated mesh provides proper ventilation as needed.
- Fast & simple to install and remove. No more opening yourself up to violations with barricade tape blowing in the wind.
- Your best practice solution for protecting against the dangers of confined spaces.
- Covers manufactured in "industrial red" color for high visibility.
- Durable, reusable, easy to clean & store. Lightweight & easy to carry.
- PROP 65 & REACH compliant.

Patent Pending
MADE IN THE USA

Applications/Uses:

- Great for high traffic confined spaces that require proper ventilation.
- Install on any opening to keep out animals.
- Use to reduce the risk of trash being carelessly tossed into confined space openings.
- Use Elastic covers in combination with our Lockable covers to successfully control access and egress points when multiple openings are present.
- Incorporate into your storeroom as a stock item to ensure continuous best practice methods are being used.
- Companies are commonly re-writing procedures/policies requiring use of lockable covers by employees & contractors.
- Each size is capable of covering a variety of opening sizes. However, we have determined several size options to ensure the best overall fit possible.

Product Specifications:

- Ventilated mesh is a polyester fabric treated for UV and fire resistance. Rated to withstand up to 400°F.
- Fabric is woven using a special reinforced "rip-stop" technique, making them highly resistant to tearing.
- 1-inch black elastic strap sewn along outer edge of cover easily tightens around manway.
- Custom cover sizes/shapes are available. Custom sign verbiage also available to fit your specific needs.
- Black UV treated polyester thread designed for outdoor durability.
- UV coated vinyl sign printed with latex ink. Rated for minimum 3 years, 24/7 direct exposure.
- 2-year manufacturer warranty.

Each size is capable of covering a variety of openings. However, we have determined several size options to ensure the best overall fit possible.
